

TradeVue™

Simple. Effective. Engaging.

Increase Engagement Generate More Leads

Provide online shoppers an instant, accurate vehicle appraisal directly from your dealer website with

TradeVue™

Interact with more Shoppers

TradeVue is a powerful vehicle estimation tool that provides car shoppers an up-to-date value of their trade-in. Using data aggregated from multiple sources and hundreds of vehicle listing sites, TradeVue is updated fresh daily - not monthly or weekly like most valuation books.

After providing basic details on their vehicle, including year, make, model - shoppers instantly receive the current trade-in value range of their vehicle from lowest to highest values without ever leaving your website. TradeVue captures valuable user data like name and email address, so you can follow up to facilitate the trade and get your customer into a new vehicle.

How It Works

Shoppers looking to buy a car browse your dealer website.

They provide relevant data on their mileage, condition and location.

They receive an instant trade-in range from high to low on their vehicle.

Get Started Now

TradeVue allows you to offer a valuable resource free to your online shoppers getting them into your sales funnel early in the car buying process. The unique, easy-to-use, one page format engages shoppers and gives them an instant trade-in value. Contact AutoSaver today and get more leads with a higher potential to convert far ahead of your competition.

TradeVue Adds Immediate Value

- Shoppers looking to buy a car don't need to leave your website to get an accurate trade-in estimate.
- Providing an independent trade-in value helps foster trust between dealer and customer and helps get the negotiation process started.
- Vehicles can sell at varying prices depending on their availability and popularity; so getting up-to-date market data is essential for a profitable trade.
- Simple, easy-to-use interface keeps shoppers engaged and provides free, helpful information.
